

# BATS, TABLES & ACCESSORIES

A SELECTION OF THE YASAKA RANGE FOR CLUBS, SHOPS AND YOUNG PLAYERS.

19|20

A WINNING STORY  
since 1947

Table tennis Superstar Ma Lin is the only men player who is Olympic Champion in both singles, doubles and team events. Already as a junior player Ma Lin decided to play with Yasaka equipment. This is a choice he never regretted. Yasaka has designed a range of high quality range of bats, including the legendary MARK V bat.

#### SWEDEN SPIRIT COMP LINE

Inspired by Mattias Falck SWEDEN SPIRIT is a light weight bat aimed specifically at the young competition player. The tournament quality of the blade combined with the grippy rubbers, produces good spin. SWEDEN SPIRIT is suitable for close to the table allround attacking play.

#### MARK V and MARK V Carbon CHAMP LINE

A top quality tournament bat. It has the famous MARK V rubbers – probably the most well-known product in table tennis. The rubbers have helped players to win tournaments all over the world. The rubbers together with the competition blade produced in the well-known Yasaka factory in Sweden are renowned as classics within the world of table tennis. The factory produce a bat that responds to the very highest demands. The rubber gives top class speed and spin and the blade produces the right feeling for good ball control even in an offensive game.

MARK V bat is also available with carbon layer inside as MARK V Carbon.

#### LEADER 3D COMP LINE

Yasaka Leader 3D is high quality a competition bat with a blade similar to swedish competition plywood and Top 12 rubbers, designed for the young competition player, playing an allround game. Rubbers with high friction and 2 mm sponge for good speed.

The 3D construction, gives more flexibility to the blade and helps to generate a catapult effect, increasing power when hitting the ball.

#### ORIGINAL CHAMPION LINE

A bat with offensive allround offensive playing characteristics. The competition quality blade equipped with the Yasaka Original XHG rubbers is recommended for the aggressive allround player. The Original XHG rubber has a superb balance and a long lasting life.

## YASAKA – A COMPLETE ASSORTMENT OF BATS

Whether you prefer a bat that produces the highest speed, most powerful spins or maximum ball control, there is always a Yasaka bat designed to fit your playing style.

The result of our advanced methods of developing and manufacturing rubbers, blades and bats means that each Yasaka bat is designed to support unique playing styles.

To make your choice of Yasaka table tennis bat easy, we have divided our models into different categories, each showing the different playing characteristics. Each package displays a chart showing a full comparison of all Yasaka table tennis bats in respect of speed, spin and level of control.

	Line	Speed	Spin	Control
MARK V	CHAMP	100	100	65
MARK V Carbon	CHAMP	105	100	65
Original	CHAMP	95	95	70
Sweden Spirit	COMP	80	80	75
Leader 3D	COMP	80	75	75
World Cup	★★★★	70	70	80
Master	★★★★	60	60	85
Champ	★★★	55	55	90
Elite	★★★	55	55	90
Colt	★★	45	45	95
Star	★	40	40	100
Primo		35	35	100
School	(no picture)	35	35	100

The chart shows a comparison of playing characteristics between the different Yasaka bats. Maximum value for spin, speed and control is 105.

## CHAMPION MANUFACTURER SINCE 1947

*Yasaka is known for giving highest priority to product quality and superior playing characteristics. The Yasaka blades are developed and produced in the "wood-town" Tranås in the south part of Sweden. Since generations there is a unique knowledge in wood technology and in the Yasaka factory there are many advanced machineries and a well educated work force.*

### WORLD CUP ★★★★★

Recommended for the novice competition player. The high quality 5-ply tournament blade is combined with the smooth ★★★★★ rubber sheet with a 2 mm medium hard sponge. The combination makes this bat very acceptable for modern play. Elegant concave handle with acrylic lens. WORLD CUP comes in an elegant 4-colour laminated paper box.

### MASTER ★★★★★

A ★★★★★-rubber with good spin characteristics, suitable for experienced recreational player and young club players. Colourful concave handle with acrylic lens. MASTER is packed in a 4-colour laminated paper box.

### CHAMP ★★★

Suitable for young players who learn the modern striking technique. The ★★★-rubber has a good balance between control, spin and speed. Colourful, concave handle with acrylic lens. CHAMP comes in an elegant 4-colour laminated paper box.

### ELITE ★★★

A popular bat designed for the recreational player and budding young club players. Combined with the 5 ply blade, the ★★★ rubber has excellent spin and good speed, giving the player the right touch and feeling required. Elegant, coloured, concave handle with a four colour printed lens insert.

### STAR ★

A bat with features geared towards inexperienced players who want good quality equipment. The blade and rubber qualities give excellent ball control and good spin. Concave handle with lens.

### COLT ★★

A modern bat with an exclusive design. The handle consists of coloured wooden veneers with a four coloured printed lens. Most players prefer the flared handle design for its comfortable fit into the palm of the hand. The ★★ rubber gives the ball a good screw effect.

### PRIMO

Designed for the beginner, children and youth players, who for example, play in schools and youthclubs. We use the strongest glue when assembling both the handle and the rubber sheets to the durable plywood. The bat gives inexperienced players the good ball control they need. Recommended for heavy institutional use.

Choosing a table tennis table is an important investment. Normally the table should be used during several years, and by many players. Often the table has to be moved up and down for training and matches, which makes a hard wear (and tear) on the table. So when you select your table you have to be very careful regarding quality and playing characteristics. When introducing a new line of tables, Yasaka has continued its well known tradition of priority for quality.

The full range of Yasaka tables have good playing characteristics and a long lasting durable construction.

Yasaka tables are not the cheapest tables available on the market, but you can always rely on the superior quality and performance for many years ahead of a Yasaka table to provide a long lasting quality table.

The Yasaka PROGRESS is for instance used in the event "SAFIR International" – one of the largest yearly competitions in Europe.

Security locker.

The PROGRESS needs a small area of storage space: 162 x 163 x 61 cm.

### PROGRESS

The PROGRESS is a competition table that has superior playing characteristics. Its specially treated blue 25 mm micro chip board top gives excellent friction and a consistent bounce.

The half automatic compact construction needs just a small area of storage space. It has a robust 50 x 20 mm precision steel frame and each half can be easily transported on its 4 ball bearing lockable steel rollers. It has a locking lever to ensure overall stability, strong corner joints and an additional middle support.

Weight: 140 kg

ITTF approved.

### **TURBO Compact Roller**
